

Vision, Mission & Goal

Vision:

The vision is to see the peoples healthies, happier and economically productive to make Bangladesh a middle income country by 2021.

Mission:

The mission is to create conditions whereby the people of Bangladesh have the oppertunity to reach and maintain the highest attainable level of health.

Goal:

The goal is to ensure quality and equitable health care for all citizens in Bangladesh by improving access to and utilization of health, population and nutrition services. A number of development activities in other key sectors implemented throughout Bangladesh will contribute to achievement of this goal along with HPNSDP.
